REPORT OF SUPERINTENDENT

To the School Board and Citizens of Fremont:

I am privileged to submit this annual report, the ninth in the series.

THE SCHOOL AND DEMOCRACY

"The free common school is America's greatest gift to humanity. It belongs to the heritage of intelligent and responsible citizenship established by our pioneering forefathers. It is necessary to the success of our Republic. The school is the surest guarantee of our personal rights. It is the safeguard of our political liberties. It is the bulwark of our representative institutions. The school seeks to enrich and ennoble home life. It develops the skills needed in agriculture and industry. It helps to awaken ambition and to establish character. It emphasizes responsibility to the common good and the general welfare. Because we believe in ourselves, in democracy, and in the future, we seek through the schools to improve the quality of our lives."

TEACHERS

I am ever mindful of the excellent work which a faithful, trained group of teachers is able to accomplish. They have shown evidence of energy and efficiency in school procedures which is of great importance to the affairs of this world, namely, in the education of the great masses. We understand the great trials and tribulations with which they are confronted. No one appreciates more than I the service they are able to render in the solution of the problems so many differing personalities offer to them.

After four years in the South School, Mrs. Ladd changed her position to accept one in another district. Miss Lula Ball, one of your own citizens, was secured to succeed her.

After a period of nine years at the Primary School, Mrs. Heselton decided to close her very successful experience. She has served the district long and well. We wish for her a continued experience of happiness and health as she toils among you. Another Fremont young lady, Miss Stevenson, succeeds her.

EDUCATIONAL PROGRESS

The progress of your pupils may be illustrated by these results taken from the May, 1935, tests.

	<i>Reached or bettered the grade</i>	<i>Below grade</i>
Grade I	21	0
Grade II	16	1
Grade III	16	1
Grade IV	7	1
Grade V	15	2
Grade VI	10	1
Grade VII	9	1
Grade VIII	9	0

This table illustrates a most satisfactory condition, namely, the small percentage of pupils below grade. It is a happy factor and one, I assure you, which I wish prevailed in all the other towns of this Union. But, alas, that is not to be. However, this does not detract one iota from the satisfaction you must feel that your pupils succeed so well under such able instruction.

Auxiliary Agencies

Include nurse, transportation, tuitions..... .300

Fixed Charges

Include per capita tax, insurance..... .030

Outlay for Plant or Equipment

Include major repairs, new equipment..... .008

As the major share of the amount listed opposite Auxiliary Agencies is for the payment of high school tuition, based upon instructional expense of the high school, it is readily seen that Instruction takes up nearly 70% of the total expenditures.

THE SCHOOL PLANT

Last summer several major repairs were completed. The South Side School was painted outside and the woodshed and toilet attached. The Primary and Pine Schools were painted inside. The Grammar School should receive two coats outside and the Primary one this summer, as only one coat was applied to the latter two years ago. The ceilings in all the schools should receive attention each year and especially the South Side School now.

SCHOOLS AND TODAY

Whatever may be wrong with this country, the public schools cannot be charged with the whole responsibility for it. Yet we are well aware of the many criticisms that are directed at them. We are quite sure that errors are evident, yet we strive to reduce these to the lowest minimum. We believe that education of today is a sane procedure to help the individual realize on his possibilities. We aim to develop character, to impress neighborliness and duty, to improve social responsibility, and to prepare youth for the life they must live, whether they desire to or not. We must not allow our schools to become outmoded. We must be progressive to meet the changing conditions the same as industry has to or is forced to by circumstances beyond its control. The schools must go on.

I would not be unmindful of the generous support given me by the corps of teachers, the helpful advice of a faithful Board,

and the loyalty of an active citizenry. To all I express my gratitude.

Very respectfully,

HAROLD C. BOWLEY,
Superintendent of Schools
